# Welcome to Berlin reloaded

The European Association for Osseointegration (EAO) and the German Association of Oral Implantology (DGI) are pleased to announce that their joint meeting will take place in Berlin, Germany, from 28–30 September 2023.

This high-level event will feature world-renowned speakers and attract more than five thousand delegates from around the world over three days. Those who can't attend in person will be able to enjoy the scientific programme virtually in a special format. Building on expertise gained creating online programmes over the past three years, this hybrid approach will offer new and exciting perspectives for all participants.

The theme for the EAO-DGI joint meeting in 2023 will be 'Berlin reloaded', reflecting the cancellation of the original live conference, scheduled for 2020, due to the pandemic. Three years later, the world is back on its feet and the EAO has put together an exciting new programme for Berlin reloaded. This will feature highly interactive sessions to engage and involve delegates at the congress, as well as colleagues tuning in to broadcasts and discussions online.

The meeting will provide great opportunities for networking and sharing the latest news and research about innovative technologies and treatment strategies.

We hope you can join us in Berlin for this ground-breaking event and help us inspire the future of implant dentistry.

We look forward to your partnership and support.
